CITYSPRING INFRASTRUCTURE TRUST
(Reg. No. 2007001)

Financial Statement And Distribution Announcement for the Quarter ended 30 June 2014

INTRODUCTION

CitySpring Infrastructure Trust ("CitySpring") was constituted under a trust deed dated 5 January 2007. CitySpring Infrastructure Management Pte. Ltd. ("Trustee-Manager") was appointed the Trustee-Manager. CitySpring was listed on the Singapore Exchange Securities Trading Limited ("SGX-ST") on 12 February 2007.

CitySpring's objective is to invest in infrastructure assets and to provide Unitholders with long-term regular and predictable distributions.

CitySpring's portfolio comprises 100% of City Gas Trust ("City Gas"), 70% of SingSpring Trust ("SingSpring"), 100% of Basslink Pty Ltd ("Basslink") (including 100% of Basslink Telecoms Pty Ltd ("Basslink Telecoms")) and 100% of CityNet Infrastructure Management Pte. Ltd. ("CityNet").

City Gas is the sole producer and retailer of town gas and the sole user of the low-pressured piped town gas network in Singapore.

City-OG Gas Energy Services Pte Ltd ("City-OG Gas"), is a business venture between City Gas and Osaka Gas Co., Ltd ("Osaka Gas"). The business venture which sells natural gas to industrial customers commenced operations on 1 August 2013.

SingSpring is the supplier of desalinated water to the Public Utilities Board, Singapore's national water agency.

Basslink owns and operates a 370 km high voltage electricity interconnector between the electricity grids of the States of Tasmania and Victoria in Australia. 290 km of the link is laid under the Bass Strait, making it the world's second longest undersea electricity transmission cable. Basslink Telecoms provides broadband capacity to telecoms carriers and service providers between Hobart, Tasmania and Melbourne, Victoria.

CitySpring Capital was established on 2 October 2012 to issue notes under the Multicurrency Medium Term Note Programme that was established on 11 October 2012.

CityNet is the trustee-manager of NetLink Trust ("NetLink"). Singapore Telecommunications Limited ("SingTel") is the sole unitholder of NetLink Trust, and retains a 100% economic interest in the business and assets of NetLink Trust. CityNet, in its capacity as trustee-manager of NetLink, owns, installs, operates and maintains assets consisting of ducts, manholes and central offices. On 28 November 2013, NetLink Trust completed the acquisition of OpenNet Pte. Ltd. The principal activities of OpenNet are to design, build and operate the fibre network for Singapore's Next Generation Nationwide Broadband Network.

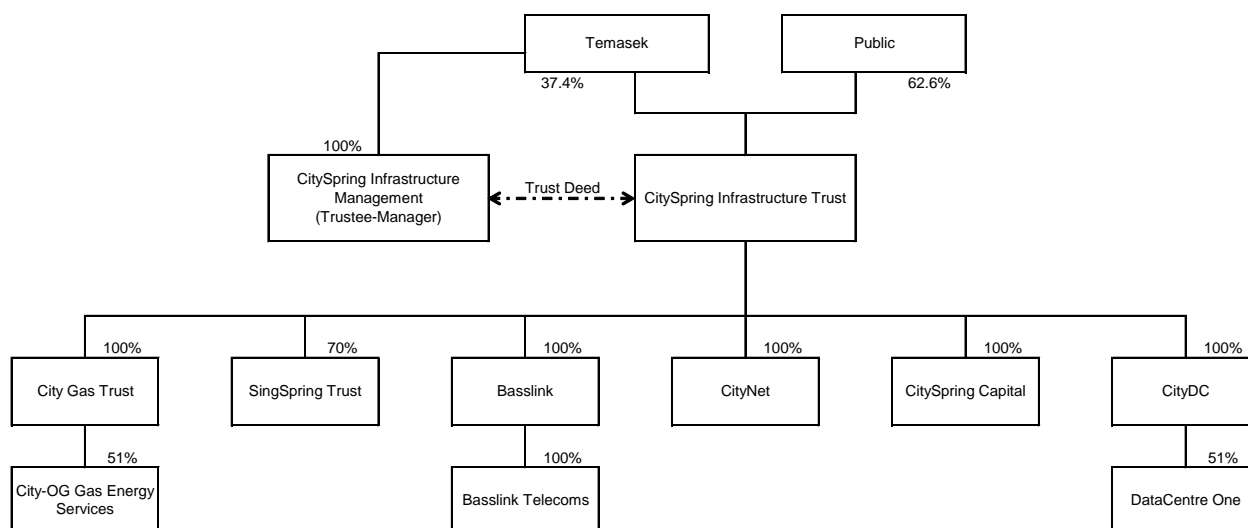

CitySpring had announced on 30 June 2014 and 3 July 2014 that it had entered into a joint venture with Shimizu Corporation ("Shimizu") to develop and lease a data centre in Singapore. The joint venture, Data Centre One Pte Ltd, is 51% owned by CitySpring through 100% owned CityDC Pte Ltd and 49% owned by Shimizu. It will lease the data centre in Singapore to 1-Net Singapore Pte Ltd, a wholly-owned subsidiary of MediaCorp Pte Ltd. As the transaction is an interested person transaction under Chapter 9 of the Listing Manual of the Singapore Exchange Securities Trading Limited, an extraordinary general meeting will be convened on 22 August 2014 to seek unitholders' approval for the transaction.

CITYSPRING INFRASTRUCTURE TRUST (Reg. No. 2007001)

Financial Statement And Distribution Announcement for the Quarter ended 30 June 2014

INTRODUCTION (cont'd)

The CitySpring Group is shown in the chart below.

Background to Analysing Financial Statements

Cash earnings

We measure our performance using cash earnings, instead of accounting profits or losses. Cash earnings is a better indicator of our performance to our Unitholders on the basis that this more accurately reflects the cash flows generated by the businesses, and removes the effect of the accounting treatment of non-cash items on our financial statements.

Cash earnings is defined as EBITDA adjusted for cash and non-cash items, less cash interest, cash tax, upfront financing fees, maintenance capital expenditure, non-controlling interests and before principal repayment of debt.

Hedging Rationale

SingSpring and Basslink have long-term 20 and 25 years contracts respectively with state-owned utilities. These contracts are availability-based and produce steady cash flows which are largely not affected by volume or utilisation. As these assets, together with City Gas, have been acquired using partly debt financing at variable interest rate, the CitySpring Group may enter into long-term contracts to protect these cash flows from interest rate risk pursuant to its active risk management policy. This policy is consistent with the CitySpring Group's stated objective of delivering regular and stable distributions to unitholders.

Accounting standards require movements in the fair value of held-for-trading contracts to be recorded in the income statements and hedging contracts to be recognised in hedging reserve. Such movements are non-cash in nature and do not reflect the fundamental value of the CitySpring Group's businesses. Due to the long term nature of these contracts, movements in fair value of these contracts can be significant.

Debt and gearing

All of our operating units utilise non-recourse financing that is specifically structured to match the stable and long-term contracted cash flows from their customers. Generally, our philosophy towards our overall debt structure is to ensure that all of our businesses have sufficient financial flexibility to meet their capital expenditure and operational needs, and at the same time are able to service their debt obligations promptly and reliably. This ensures that we have an optimal capital structure with the flexibility for us to execute our growth strategies.

As such, consolidated debt-to-equity ratio at the CitySpring level is not a relevant measure of our indebtedness.

INTRODUCTION (cont'd)

Energy costs

At City Gas, fuel costs consist mainly of the cost of natural gas. This is in turn recoverable from the fuel component of the town gas tariffs determined by the Energy Market Authority. On a long term basis, changes in fuel costs are expected to have no impact on City Gas as fuel costs are passed through to the end-users. However, at any point in time, the actual tariff for town gas may not exactly match fuel costs as tariff changes are subject to a periodic regulatory process whereas fuel prices change daily. Short term impact may therefore be evident if there are changes in fuel prices.

At SingSpring, the energy cost is recovered from PUB in accordance with the principles set out in the Water Purchase Agreement.

At Basslink, energy costs do not form a substantial portion of its operating expenses relative to its other operating costs.

Other Income

Other income includes interest income, rental income and other miscellaneous operating income.

Other gains / (losses) - net

This includes realised gains or losses and fair value gains or losses from held-for-trading derivative financial instruments and currency translation gains or losses.

	1,306,398	1,297,728

The Group has completed the loan documentation for the refinancing of the CitySpring corporate loan of S\$142.3 million. The existing loan will be repaid and the new loan will be drawn down on 15 August 2014. Upon the drawdown of the new loan, the loan covenants relating to controlling unitholder or change in control as stated below will no longer apply as they do not form part of the terms of the new loan.

Details of any collateral at CitySpring

The bank borrowings are secured over the assets and business undertakings of City Gas, SingSpring and Basslink Group. The loan granted to SingSpring is also secured by a charge over the units in SingSpring held by the Trustee-Manager and Hyflux Ltd³, and a charge over the shares held by the Trustee-Manager in SingSpring Pte Ltd. The corporate loan granted to CitySpring is secured over its assets and business undertakings, including a charge over the units in City Gas, and the shares in City Gas Pte Ltd and in CityLink Investments Pte Ltd ("CityLink"), the holding company of Basslink, held by the Trustee-Manager. CityLink has provided a corporate guarantee for the corporate loan.

Loan covenants relating to controlling unitholder or change in control

This information was announced on 28 October 2011 pursuant to new Rule 704(31) of the SGX-ST Listing Manual and is included here for Unitholders' information.

(a) Under the existing CitySpring corporate loan which matures on 15 August 2014:

- (i) if Temasek Holdings (Private) Limited ("Temasek") ceases to own, free from encumbrances, all the issued shares in the Trustee-Manager; or
- (ii) the Trustee-Manager resigns or is removed as trustee-manager of CitySpring,

any lender under this facility agreement may require the borrower to repay that lender's share of the loan outstanding together with interest and other amounts accrued thereon.

(b) Other facilities

The repayment of the above credit facility upon the occurrence of a change in control of CitySpring or the Trustee-Manager could also cause a default at CitySpring, even if the change in control itself does not, as the financial effect of such repayment could constitute a material adverse effect affecting CitySpring, taken as a whole.

(c) Interest rate hedges

The Trustee-Manager has entered into various interest rate swaps to hedge the exposure of CitySpring to interest rate volatilities under the facility agreement to which it is a party. If the underlying facility agreement to which an interest rate hedge relates is terminated by reason of the occurrence of a change in control of CitySpring or the Trustee-Manager as described above, the relevant interest rate hedge may also be terminated. In such a case, amounts payable under the relevant interest rate hedge will be netted off and payable to the relevant party to whom such net amount is owed.

Financial Statement And Distribution Announcement for the Quarter ended 30 June 2014

6. Earnings per unit of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year.

6.1 Earnings per unit and distribution per unit for the financial period

	1Q FY15	1Q FY14
(i) Weighted average number of units	1,518,893,062	1,518,893,062
(ii) Earnings/(loss) per unit for the period based on the weighted average number of units in issue (cents)		
- Basic and diluted	0.17	(0.12)
(iii) Number of units issued at end of period	1,518,893,062	1,518,893,062
(iv) Distribution per unit for the period (cents)	0.82	0.82

6.2 Cash earnings per unit attributable to unitholders for the financial period

	1Q FY15	1Q FY14
Cash earnings per unit for the period based on the weighted average number of units in issue (cents)		
- Basic and diluted	1.49	1.05

Cash Earnings is defined as EBITDA adjusted for cash and non-cash items, less cash interest, cash tax, upfront financing fees, maintenance capital expenditure, non-controlling interest and before principal repayment of debt.

7. Net asset value (for the issuer and the group) per unit based on the total number of issued units excluding treasury shares at the end of the:-

- (a) current financial period reported on; and
(b) immediately preceding financial year.

Net asset value (“NAV”) per unit based on units issued at the end of the period

	Group		Trust	
	30 Jun 2014	31 Mar 2014	30 Jun 2014	31 Mar 2014
Net asset value per unit (cents)	20.6	23.4	42.7	43.0

The Group NAV per unit before hedging and translation reserves is 32.3 cents as at 30 June 2014 and 33.0 cents as at 31 March 2014.

The number of units used for computation of actual NAV per unit is 1,518,893,062 which is the number of units in issue as at 30 June 2014 and 31 March 2014.

The Group adopts an active risk management strategy and where appropriate would enter into contracts to protect its cash flow. This policy is consistent with the Group’s stated objective of delivering regular and stable distributions to unitholders. Accounting standards require movements in the fair value of held-for-trading contracts to be recorded in the income statement and hedging contracts to be recognised in the hedging reserve. At 30 June 2014, the Group had a hedging reserve of negative S\$153.7 million (31 March 2014: negative S\$121.6 million). Due to the long term nature of some of these contracts, movements in fair value of these contracts can be significant. The fair value movements in hedging reserve are non-cash and do not reflect the fundamental value of the Group’s businesses.

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:-
- (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
 - (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

8.1 Income Statement (1Q FY15 vs 1Q FY14)

Revenue

Group revenue for 1Q FY15 was S\$133.4 million which was S\$6.3 million higher than 1Q FY14.

At City Gas, revenue of S\$98.6 million in 1Q FY15 was S\$1.8 million higher than its revenue of S\$96.8 million in 1Q FY14. This was due mainly to higher volume of gas sold.

SingSpring's revenue of S\$8.9 million in 1Q FY15 was S\$0.7 million lower than its revenue of S\$9.6 million in 1Q FY14. This was due mainly to lower energy revenue due to lower fuel costs.

Basslink's revenue of A\$21.3 million (approximately S\$24.9 million) in 1Q FY15 was higher than A\$16.3 million (approximately S\$20.1 million) in 1Q FY14. It was due mainly to CRSM⁴ of A\$1.0 million (approximately S\$1.2 million) as a result of a positive adjustment⁵ in 1Q FY15 compared to negative A\$3.6 million (approximately S\$4.5 million) in 1Q FY14.

CityNet contributed revenue of S\$1.0 million in 1Q FY15 which was higher than its revenue of S\$0.5 million in 1Q FY14. This was due mainly to the additional management fee following the completion of the acquisition of OpenNet by NetLink Trust on 28 November 2013.

Other income

This comprises interest income and other miscellaneous income. Other income was S\$0.8 million in 1Q FY15 compared to S\$0.7 million 1Q FY14.

Other losses/gains – net

Other losses – net of S\$2.8 million in 1Q FY15 compared to S\$0.6 million 1Q FY14 were due mainly to fair value movement on derivative instruments and currency translation movement.

Operating Expenses

Fuel and electricity costs of S\$51.8 million in 1Q FY15 were marginally higher than S\$51.3 million in 1Q FY14.

Depreciation and amortisation costs were S\$13.0 million in 1Q FY15 which were marginally lower than S\$13.5 million recorded in 1Q FY14.

Finance costs of S\$17.1 million in 1Q FY15 were comparable to S\$17.2 million in 1Q FY14.

Other operating expenses of S\$9.0 million in 1Q FY15 was lower than S\$11.3 million in 1Q FY14. The lower operating expenses in 1Q FY15 was due mainly to the absence of legal fees incurred for the dispute.

Income tax

Income tax expense was S\$2.1 million in 1Q FY15 compared to S\$0.8 million in 1Q FY14. 1Q FY15 income tax expense comprises mainly current income tax expense and deferred income tax expense. 1Q FY14 income tax expense comprises mainly current income tax expense and deferred income tax credit.

⁴ Commercial Risk Sharing Mechanism ("CRSM") is a mechanism provided under the Basslink Services Agreement ("BSA") between Basslink and Hydro Tasmania ("HT") for the sharing of the market risk associated with participating in the National Electricity Market of Australia. The CRSM payments are based on the differences between the high and low Victorian electricity pool prices, and are subject to a maximum +25% increase (i.e., a payment to Basslink) and -20% decrease (i.e., a payment from Basslink) of the unadjusted facility fee under the BSA.

⁵ The adjustment is in accordance with paragraph (b) of schedule 4 of the BSA, where the rolling 5-year cumulative CRSM shall be capped at -17% if it exceeds -17%.

- (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and**
- (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on. (cont'd)**

8.1 Income Statement (1Q FY15 vs 1Q FY14) (cont'd)

Cash earnings

1Q FY15 cash earnings was S\$22.6 million which was S\$6.6 million higher than S\$16.0 million in 1Q FY14.

City Gas recorded cash earnings of S\$12.7 million in 1Q FY15 compared to S\$13.1 million in 1Q FY14. City Gas' short term profit margins can be affected by movements in fuel costs. This is because City Gas can only change the tariffs at which it charges its customers once every three months, whereas fuel costs fluctuate daily on the open market. From quarter to quarter, there is therefore potentially a mis-match between City Gas' fuel costs and tariffs, although the tariff adjustments mechanism is designed to ensure that we fully recover our fuel costs over a period of time.

SingSpring desalination plant achieved 100% availability in 1Q FY15, and recorded cash earnings of S\$4.0 million which was higher than S\$3.5 million in 1Q FY14 due mainly to lower finance cost.

Basslink's cash earnings was A\$6.7 million (approximately S\$7.8 million) in 1Q FY15 which was higher compared to A\$1.4 million (approximately S\$1.8 million) in 1Q FY14. The higher cash earnings was due mainly to CRSM of A\$1.0 million (approximately S\$1.2 million) as a result of a positive adjustment⁶ in 1Q FY15 compared to negative A\$3.6 million (approximately S\$4.5 million) in 1Q FY14, and absence of legal fees incurred for the dispute in 1Q FY15.

CityNet contributed cash earnings of S\$1.0 million in 1Q FY15 which was S\$0.5 million higher than 1Q FY14. This was due mainly to the additional management fee following the completion of the acquisition of OpenNet by NetLink Trust on 28 November 2013.

8.2 Balance Sheet – Group

Total assets as at 30 June 2014 was S\$1,945.5 million which was marginally lower than total assets of S\$1,947.8 million as at 31 March 2014.

Total liabilities as at 30 June 2014 was S\$1,620.1 million which was higher than total liabilities of S\$1,581.5 million as at 31 March 2014. This was due mainly to increase in mark-to-market liability of the derivative financial instruments.

Total unitholders' funds as at 30 June 2014 was S\$313.4 million which was lower than total unitholders' funds of S\$354.9 million as at 31 March 2014. This was due mainly to distribution to unitholders and effects of mark-to-market changes of the derivative financial instruments on hedging reserve.

⁶ The adjustment is in accordance with paragraph (b) of schedule 4 of the BSA, where the rolling 5-year cumulative CRSM shall be capped at -17% if it exceeds -17%.

 - (b) **any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on. (cont'd)**

8.3 Balance Sheet – Trust

There was no significant movement in the assets and liabilities of the Trust as at 30 June 2014 compared to 31 March 2014.

The Group has completed the loan documentation for the refinancing of the CitySpring corporate loan of S\$142.3 million. The existing loan will be repaid and the new loan will be drawn down on 15 August 2014.

8.4 Cashflow

Cash generated from operating activities was S\$21.3 million for 1Q FY15 compared to S\$16.4 million for 1Q FY14. The higher cash generated was due to the higher cash earnings as explained in paragraph 8.1 (refer to the performance review of 1Q FY15 vs 1Q FY14).

Net cash used in financing activities of S\$16.7 million comprised mainly distributions to Unitholders of CitySpring and non-controlling interest of a subsidiary.

Cash and bank deposits less restricted cash as at 30 June 2014 was S\$262.9 million which was an increase of S\$105.8 million compared to S\$157.1 million as at 30 June 2013. This was due mainly to the proceeds of S\$39.2 million from the sale of 49% of City-OG Gas to Osaka Gas in August 2013 and the higher loan amount by S\$50.0 million at City Gas.

9. **Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

No forecast statement for financial year 2015 has been disclosed.

10. **A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

Group Operations

Basslink and SingSpring have long-term contracts with state-owned utilities.

City Gas may see slower growth due to the current uncertainty in the economy. City Gas' cash earnings could fluctuate depending on changes in tariffs in response to changes in fuel costs. The tariff adjustments mechanism is designed to ensure that we fully recover our fuel costs over a period of time. City Gas has announced that it has obtained approval to decrease gas tariff by 0.1% from 1 August 2014.

Arbitration between Basslink Pty Ltd ("BPL") and Hydro Tasmania ("HT")

The outcome of the arbitration and legal costs awards were announced on 15 January 2014 and 5 February 2014 respectively.

Refinancing Plans

As highlighted in paragraphs 8.2 and 8.3, the Group has completed the loan documentation for the refinancing of the CitySpring corporate loan of S\$142.3 million. The existing loan will be repaid and the new loan will be drawn down on 15 August 2014.

Basslink had appointed a financial adviser for the refinancing of the Basslink bonds of A\$486 million due in August 2015. In order to provide for capital management flexibility at Basslink, no cash distribution has been or will be received from Basslink until the refinancing plan has been finalised.

The above refinancing plans have no impact on the target annual distribution of 3.28 Singapore cents per unit for FY15 barring any unforeseen circumstances and assuming no material changes to the Group.
